

Welcome to our home.

Our home is currently free from COVID-19.

For the safety of residents and staff, only outdoor visits are allowed at this time in the designated outdoor visiting area. Before you can visit, you must have had a negative COVID-19 test within the last two weeks and answer a series of screening questions.

For the protection of our residents and staff, please follow these directions during your visit today. If at any time a guest fails to follow these rules, we will be forced to discontinue future visits:

Clean your hands. When you arrive, clean your hands using hand sanitizer, rubbing thoroughly over all areas of your hands.

Wear a mask. You should bring your own cloth mask or face covering for outdoor visits. We will provide you with a mask if you don't have one and show you how to put it on, if needed. You must continue to wear your mask at all times during the visit.

Stay in designated areas. To beat COVID-19 we need to follow public health advice. Please help our staff by keeping to designated visiting areas and please note that washrooms will not be available to guests during these visits.

Maintain physical distance. We know, this one's hard. But for everyone's safety, avoid physical contact during your visit and do your best to stay two metres (six feet) apart at all times.

Clean your hands (again). Before you leave, clean your hands thoroughly using an hand sanitizer. If you're wearing a home-provided surgical mask please dispose of it in the receptacle provided.

Welcoming Visitors to Your Home During COVID-19

For visits to resume, your home must first meet ALL of the requirements on this checklist.

- Your home is NOT currently in outbreak.
- You have a process for communicating with residents, families and staff about visits and associated procedures (scheduling visits that are at least 30 minutes long, infection prevention and control, etc.).
- You will create and maintain a list of visitors, and keep that list available for the appropriate staff members to access.
- You have information for every visitor that provides clear directions on safety precautions, including:
 - Physical distancing
 - Respiratory etiquette
 - Hand hygiene
 - Infection prevention and control practices (IPAC)
 - Proper use of personal protective equipment (PPE), and
 - Limiting movement around the home.

You are responsible for ensuring visitors comply, and for establishing an approach to dealing with non-adherence to your home policies and procedures, including the discontinuation of visits.

- Your staff must administer an active screening questionnaire to all visitors and take their temperature. As part of

this screening, visitors must attest that they:

- Do not have symptoms (either typical or atypical) of COVID-19
 - Have not been exposed to COVID-19
 - Tested negative for COVID-19 within the previous two weeks, and
 - Subsequently not tested positive.
- You have prepared a designated, outdoor visiting area that supports physical distancing.
 - Visitors visiting residents outdoors must wear a face covering (non-medical mask). Visitors may bring their own or they may ask the home for a mask to use. You will supply masks and provide guidance on how to wear them, if needed.
 - You have protocols in place to maintain the highest of Infection Prevention and Control standards before, during and after visits.

Welcome to our home.

Our home is currently free from COVID-19.

Our staff may have additional requests. Your cooperation will help them keep everyone safe. While we know how much your visit means to our residents, our priority will continue to be keeping our home outbreak-free for the safety of our residents and staff. For this reason, if visitors don't follow the above guidance they will not be permitted to return.

We thank you for your cooperation in scheduling one visit per week, to ensure all residents have a chance to receive visitors.

**Your visits mean the world to our residents.
Thank you for helping make everyone's visit
successful and safe.**
