

Tracy, Spiritual and Cultural
Engagement Lead

Palliative Care

Ensures residents are provided with care and services based in palliative care philosophy

Responsive Behaviors

Includes assessments, reassessments, and strategies to minimize or respond to responsive behaviors

Vicki, BSO Clinical Coach

Pain Management

Aims to identify and manage resident pain.

Shirley, RPN Team Lead

Quality Resident Care

The following are interdisciplinary programs required by the FLTC & Regulations, informed by Best Practice Guidelines from the Registered Nurses Association of Ontario (RNAO) to improve resident care in our home.

Falls Prevention and Management

Aims to reduce the incidences of falls and the risk of injury.

Jen, RAI Nurse

Skin and Wound

Aims to promote skin integrity, prevent the development of wounds and provide effective skin and wound care interventions.

Colleen, RPN Team Lead

Continence Care

Aims to promote continence and ensure that residents are clean, dry and comfortable.

Tricia, RPN Team Lead
