Board Update: Special Projects and Education:

We are excited to announce an upcoming Caregiver Education Event that will be held in the home on March 17. This event will focus on providing essential caregiving resources and support, with a strong emphasis on Alzheimer's care. We will be partnering with the Alzheimer's Society to deliver sessions aimed at improving the quality of life for both caregivers and residents.

Palliation Training for Staff:

At the beginning of February, we rolled out Palliation Training for all staff, led by Nurse Practitioners and Tracy Davis as well as other key staff in the home. This is a significant initiative aimed at ensuring that all staff members are equipped with the knowledge and skills to provide compassionate end-of-life care. The training will be mandatory for all staff to ensure consistency in care across the home.

Admissions:

Since our last report, we have had 5 new admissions, 3 came from hospital, one from LTC in Southern Ontario and one from the community.

Discharge and MOLTC Updates:

There was one significant discharge to report: a younger woman who transitioned from our care to live at PHARA with her daughter. We wish her all the best as she begins this new chapter.

We continue to monitor and support all residents as they transition in and out of the home. Our MOLTC processes remain in place, ensuring all necessary documentation and protocols are met to support ongoing care needs.

OPERATIONS UPDATE

INFECTION CONTROL - Ellen Whittaker, IPAC Manager

Hand Hygiene Observations:

Hand hygiene observations are ongoing and the focus has been on the units that have the highest number of respiratory cases at the time. An employee who is on modified duties has been assigned to complete hand hygiene observations on all units.

Outbreaks:

There is presently a respiratory outbreak facility-wide which has Influenza identified as the causative agent and an unidentified causative agent. There has been 19 resident cases to date and 20 staff cases. All consenting residents are on Tamiflu either as treatment or prophylactically.

There is also an enteric outbreak facility-wide with no causative agent yet identified. There has been 27 resident cases and 12 staff cases.

Immunization

After everyone's efforts to get ready for an Influenza outbreak, we achieved great results!

As of January 24th 2025 these were our stats:

Staff flu shots: 80% (also, 19 staff have provided proof of Tamiflu, so 85% of our staff are ready to work during an influenza outbreak). This has continued to increase slightly.

In last year's respiratory season staff flu shot rates in the province were 60.8% in LTC and 38.5% in hospitals. Cassellholme's staff flu shot rate for last year was 66%.

This year we are significantly above our own numbers for last year and the provincial stats.

Resident flu shots: 86%

Resident RSV immunization: 70%

These have all been reported to the Ministry, as required

IPAC Construction Audits

Audits continue to be done at least weekly, with a focus on the debris control and removal, dust control and cleaning at the site, as required in CSA Z317.13-17.

The updates to the original IPAC plan, to include more detail, have not yet been received from Percon.

An IPAC plan specific to the connection of the link has been finalized and the negative air pressure is being monitored multiple times per day. No problem to date. The maintenance department is verifying weekly that the hoarding at doors facing the construction remains intact.
